E-COMMERCE PACKSHOT

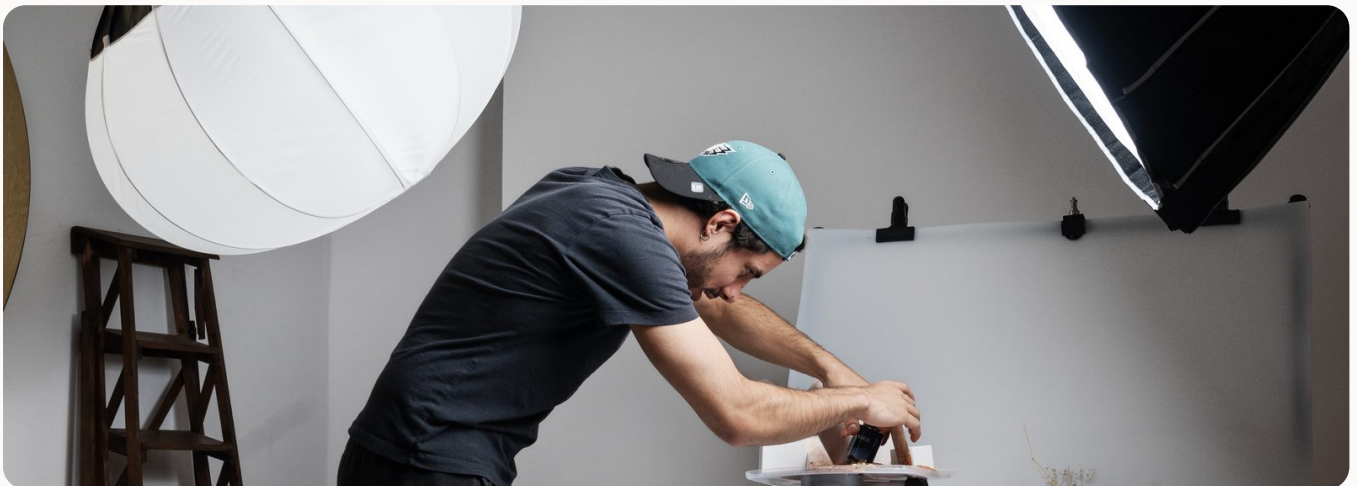

The garment, photographed for real.

The Studio Honoré packshot book.
Ghost mannequin or flat lay, premium
retouching included, visuals ready to
sell.

The garment you sell, for real.

No 3D render, no AI-generated image. Real pieces, on our set, under real light, cut out and retouched by hand. The customer receives exactly what you ship: the right fabric, the right colour, the right cut.

Flat lay packshot

Laid flat or hung. A clean, consistent catalogue look, perfect for t-shirts, sweatshirts, shirts and structured pieces.

Ghost mannequin packshot

The garment is shot on a mannequin, then removed in post-production: it appears to float, perfectly shaped, as if worn.

Visuals ready to sell

Even background, true colours, clean cut-out. Real pieces shot and retouched at the studio.
